

Steve Pomfret, Founder & CEO of Cygnetise

Steve has spent the majority of his career working within operational change within large banks and brokers, including Credit Suisse, UBS, Instinet and Deutsche Bank. He has acted as an internal consultant, troubleshooting areas to improve efficiency and minimise risk. Areas covered include emerging markets, investment banking, custody, fund administration, wealth management, trade finance and corporate banking. As CEO of Cygnetise he has delivered a live, commercial Blockchain application. Cygnetise is one of the first commercial uses of Blockchain outside of cryptocurrencies used across multi industry sectors.
